My name is Greg Ashley; I'm twenty four years old and I am passionate about design. I have over five years experience and aim to exceed expectations every time.

I am well organised and communicate effectively with others; be it within a creative team or with clients. I can also work well alone and feel confident in creating original concepts within a deadline.

I specialise in unique brand creation, user experience design and effective website design; taking an initial idea and turning it into something which is both visually exciting and user friendly.

## MY EXPERIENCE

### AsOne Design Limited 2006/ 2011

Here I worked as a graphic and web designer. I started as an apprentice from college and have since learnt the ins and outs of working in a design studio; from producing quality design work within a deadline to making sure a project flows from concept to completion towards an end result which I can be proud of.

### Ticketmaster 2004/ 2006

I worked at Ticketmaster in Manchester as a call centre agent for two years whilst at college and between looking for a design job. I handled incoming calls from customers and was often asked to work in the ticket office to set up reams to be printed and posted.

### Tesco 2002/ 2004

I worked for the busy Tesco Metro in Manchester for almost two years after school and through part of college. My job roles varied whilst there, sometimes I worked on the shop floor and on the tills but I also spent a lot of time in the stock and delivery rooms.

## MY INTERESTS

In my spare time I enjoy cross-country mountain biking and try to see as much live music as I can.

## MY SKILLS

- Logo Design
- Design for Web
- Design for Print
- Adobe Illustrator
- Adobe InDesign
- Adobe Photoshop
- Adobe Fireworks
- Adobe Dreamweaver
- Coda
- HTML
- CSS
